\$809.00

MODEL W-5 "Wind Noise Test Set"

Consists of the EI-500 Tubular Style Detector with battery, Tone Generator with batteries, Rubber Focusing Extension, Lightweight Headset, and carrying pouch with belt loop, users manual on a CD.

\$809.00 plus shipping from Miami, Florida, USA

EFI MICROSONIC ACCESSORIES

+ H-1

\$25.00

H-1 "Pistol Holster"
Which allows the pistol style detectors to be worn on a belt. The holster has an additional pouch so that a second module may be stored in it.
\$25.00 plus shipping from Miami, Florida, USA.

+ PK-1

\$52.00

PK-1 "Probe Extension Kit".
Three 12 inch extension rods to extend the reach of the Stethoscope units.
\$52.00 plus shipping from Miami, Florida, USA.

+ TG-2

\$89.00

TG-2 Tone Generator
With batteries for finding leaks in volumes where no pressure or vacuum is present.
\$89.00 plus shipping from Miami, Florida, USA.

+ RFE-1

\$21.00

RFE-1 Rubber Focusing Extension
Which slips on the front of a leak detector module to allow additional pinpoint accuracy and more attenuation of outside noises.
\$21.00 plus shipping from Miami, Florida, USA.

+ DH-1

\$41.00

DH-1 Deluxe Headset.
Large headset with ear covering muffs to shut out outside noises and rotatable headband to allow the over the head band to be rotated to behind the head to allow for a hard hat.
\$41.00 plus shipping from Miami, Florida, USA.

+ SH-1

\$64.00

SH-1 Lightweight Headset
With under chin band which can be used with a hard hat.
\$64.00 plus shipping from Miami, Florida, USA.

+ LDM-1

\$130.00

For pistol style detector.
\$130.00 plus shipping from Miami, Florida, USA.

+ SM-1

\$130.00

SM-1 Stethoscope Module
For pistol style detector.
\$130.00 plus shipping from Miami, Florida, USA.

EFI MICROSONIC ACCESSORIES

→ CC-700

\$41.00

CC-700 Carrying case
For 700 series pistol style detector, includes holster.
\$41.00 plus shipping from Miami, Florida, USA.

→ CC-500/300

\$23.00

CC-500/300 Pouch
With belt loop for tubular style detectors.
\$23.00 plus shipping from Miami, Florida, USA.

→ MSM-1

\$250.00

MSM-1 "Magnetic Stethoscope Module".
A module that plugs into the front end of the Pistol Style Detector with a five foot cord leading to the actual Stethoscope Module which has a rare-earth magnet assembly on the front to allow it to be magnetically attached to the piece of machinery being listened to. This is especially useful when the operator needs both hands free such as when using a grease gun to inject grease in a bearing and listening for the lowest sound point which indicates the optimal grease point.
\$250.00 plus shipping from Miami, Florida, USA.
